

Exploration

STUDENT worksheet

Name _____

Date _____

Follow Your Food

Overview

In this Exploration you will complete a diagram of the digestive system by naming its parts. Then you will watch an animation of food traveling through the digestive system.

Questions

1. In which digestive organ does food spend the least amount of time? _____
2. Which digestive organ mixes food with digestive juices? _____
3. What happens to food as it travels through the digestive system? _____

How to Use This Exploration

1. Read the Introduction and click the Continue button.
2. Identify the Exploration components.
3. Roll your mouse over each name on the left to reveal what that digestive organ does.
4. Drag each name to its place in the digestive system diagram on the right.
5. When you've named the parts of the digestive system correctly, click the Next button to watch a bite of food travel through the digestive system.
